

VANDERLIP WARNS OF INFLATION CRASH

Sees Danger Ahead Unless Brakes Go On—Urges Thrift by All.

ADMINISTRATION SCORED

Lack of Leadership and Congress's Politics Deplored, Before Economic Club.

Frank A. Vanderlip, formerly president of the National City Bank, gripped the attention of the Economic Club at the Hotel Astor last night with his down-draft address on the ills of the world and how to cure them, and on the special topic of the breakdown of foreign exchange and how to rebuild it.

Mr. Vanderlip would have Congress appropriate \$150,000,000 forthwith to relieve the actual starvation of Central Europe. He would have instituted there an intelligent system of credits, obtained from our investors, rationed with a broad view to European needs and secured by underlying obligations. He would have a solvent banking position, warning that inflation must be reduced that money may regain its normal buying power and a dangerous crash averted.

"For all the people, rich and poor, consumer and producer, he recommends thrift as a cardinal principle of living in these troublous days, and he advises that labor should be dealt with in such a way as to satisfy it and influence it to produce more and more efficiently. He advised employers not to think of reducing wages; tells them, in fact, to quit thinking about the notion and to plan for such efficiency as will balance increased wages, and finally he comes out against a great national expenditure for universal military training, contending that the \$750,000,000 proposed for that purpose could more profitably be used to train young men in the principles of government and economics.

No Hunger in Petrograd, Says English Laborite

LONDON, Feb. 25.—Griffin Barry telegraphs from Petrograd to the *Daily Herald* (Labor organ) under date of February 18, saying that if there is real hunger in the city, he has been unable to discover it. He adds: "I saw no signs of despair among the workers. For the first time in their lives they were getting a full share of everything there was. The simple logic of revolution has made every one a worker unless he has saved enough gold to buy the vanishing commodities at fantastic prices. 'I have been told that I need no Government passport. That gave me a sensation of freedom new to any traveler in wartime in Europe.'"

\$440,000 NEEDED IN SICK RELIEF WORK

Association for Improving Condition of Poor Tells How Money Is to Be Used.

Four hundred and forty thousand dollars of the \$750,000 fund which the Association for Improving the Condition of the Poor needs for its work among New York's poor this year, and which the association will endeavor to raise by a campaign beginning March 5, is required for use in the homes of families needing assistance because of sickness, for helping widows with children all under working age and for assisting families where tuberculosis is handicapping the breadwinner.

The remaining \$310,000 is needed by the association this year for preventive nursing care of mothers, infants and young children and for seashore and country outings this summer for these people, for convalescent care of the sick, for maintaining workshops where aged men and women can earn their living, for medical and dental clinics, and for coping with epidemics and calamities of an emergent nature, such as infantile paralysis, influenza, scarlet fever, etc.

It should be noted that B. Burritt, general director of the association, said yesterday that this \$440,000 monetary relief is intended for use in tenement households where there are no wage earners or where the wage earner is incapacitated by sickness or other cause.

"Last year," Mr. Burritt said, "the association cared for a total of 4,750 sick families, consisting of 12,562 individuals, at a cost of \$244,512, and this year's work will cost fully \$105,000 more than last. Rents, even in the poorer sections of the city, have increased fully 50 per cent.; clothing shows an advance of at least 120 per cent.; food is about 90 per cent. dearer, and similar advances apply to every possible item of household and living expenses. All of which have to be met when a destitute family applies or is referred to us for assistance.

"Relief is all too freely thought of simply as money. Money is important, but the first thing to do is to provide a suffering family with the food it needs; we pay the rent, and also see that adequate clothing and whatever medical and nursing care is required.

"The relief of the sick, however, involves more than this; it involves securing in nearly every case the medical examination of every member of the family and frequently the attention of a doctor, nurse and clinic, not only to assist in regaining lost health, but also in removing physical defects from children. These defects frequently prevent effective progress in school or work. Relief also often involves finding a better home for the family; it involves suitable education of the children and the cooperation with the home in securing a mental restoration, so that they leave school. In short, it involves all of those complex physical and moral problems with which every parent has to deal."

OFFERS \$50,000 AIR PRIZE.

London Paper Stipulates Round Trip to Karachi, India.

A prize of £10,000 has been offered by the *London Daily Express* for the first entrant making a return flight from London to India carrying 1,200 pounds of cargo, according to an announcement made yesterday.

The contest, which is to be conducted by the Royal Aero Club, is open to American aviators. It is designed, of course, to aid the progress toward regular commercial air travel. The regulations provide that the flight must be made between May 1 and October 31 of this year; that the time occupied on either leg of the journey shall not be more than twelve days; and that the cargo may be carried by one or two aircraft. "Ships" may be changed en route, but all those used by each individual entrant must be the product of one aircraft manufacturer. Karachi, India, is the turning point.

INCREASE IN DIPHTHERIA.

Disease Not Epidemic, Says Commissioner Copeland.

Dr. Royal S. Copeland, Health Commissioner, denied yesterday that there is a diphtheria epidemic in the city. The disease is prevalent, but not unusually so for this time of the year.

There have been 2,573 cases since January 1, against 2,494 for the same period last year. The deaths this year number 274, against 272 a year ago. Dr. Copeland said that the cause of the deaths is children under 5 years, and urged the Schick test for all children. This test shows if a person is susceptible; if so, he can be vaccinated.

There were 48 new cases of influenza and pneumonia reported to the Health Department yesterday. This was an increase of 361 from the preceding twenty-four hours. Total deaths reported were 108, as compared to 74 on the day before.

HOW TO ACQUIRE HAIR BEAUTY

You can enjoy a delightful shampoo with very little effort and for a very trifling cost, if you get from your druggist's a package of canthorin and dissolve a teaspoonful in a cup of hot water. This makes a full cup of canthorin liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. Your shampoo is now ready. Just pour a little at a time on the scalp and hair until both are entirely covered by the daintily perfumed preparation that thoroughly dissolves and removes every bit of dandruff, excess oil and dirt, after rinsing the hair clean, quickly, with a fluffiness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes acquiring it a pleasure.—*Adv.*

SOCIALIST DENIES PARTY DOMINATION

Louis Waldman, One of Five Suspended Assemblymen, Outlines Their Defence.

CALL CITY POLICEMEN Offer Testimony to Refute Statement of Miss Chivers of Brooklyn.

Special to THE SUN AND NEW YORK HERALD.

ALBANY, Feb. 25.—Nothing in the Socialist constitution prevents members of that party who are elected to office from supporting Federal and State constitutions, Louis Waldman, one of the five Socialist Assemblymen on trial, today told the judicial committee when he outlined the defence of the suspended members. Denying that he and his associates had signed resignations giving their party complete domination over their acts, Waldman declared that the Socialist Assemblymen were not obstructionists, but had fought claim bills, corporation grabs and profiteering.

In answer to the specific charge that the Socialists had voted against all military appropriations, as directed by their party, and had thereby violated their oath to uphold the State Government, Waldman said there never were presented itemized provisions for the armed forces of the State. These sums had been included in general appropriation bills which the Socialists had been denied access before final passage, the witness said.

ARNSTEIN READY TO SURRENDER ON BAIL

Continued From First Page.

Under the name of Arnstein or any of his aliases, the petition asserts that the Excelsior Savings Bank has an account in the name of Fannie M. Arnold, and that the alleged bankrupt had been known as J. W. Arnstein. It is maintained also that the Greenwich Savings Bank and the Central Mercantile Bank have accounts under the name of Nicholas J. McCormick, which Mr. Childs says he thinks belong to Julius Rosalsky in General Sessions to three years in Sing Sing after his conviction for first degree grand larceny.

It is intended by Mr. Dooling to question Miss Brice today regarding an apparent discrepancy between the story she told Albany Bldg. Assistant District Attorney, on February 18, and what she is said to have told reporters on October 27 last. The new indictments to be asked for will charge Arnstein with being a second offender. The accusation will be based upon his sentence June 10, 1915, by Justice Rosalsky in General Sessions to three years in Sing Sing after his conviction for first degree grand larceny.

Mr. Dooling to-day regarding an apparent discrepancy between the story she told Albany Bldg. Assistant District Attorney, on February 18, and what she is said to have told reporters on October 27 last. The new indictments to be asked for will charge Arnstein with being a second offender. The accusation will be based upon his sentence June 10, 1915, by Justice Rosalsky in General Sessions to three years in Sing Sing after his conviction for first degree grand larceny.

URGES WOOD PULP INQUIRY.

Houston Points to Alaska as Source of Relief.

WASHINGTON, Feb. 25.—Senator Poinsett's (Wash.) bill authorizing the Department of Agriculture to investigate the shortage of wood pulp and plans for relieving it is the "first real opportunity to get at the fundamental causes of the present shortage" of newsprint paper and should be passed, the Senate agriculture committee was informed today by David F. Houston, formerly Secretary of Agriculture. Mr. Houston wrote in reply to a request from the committee for information, "Eastern pulpwood areas have been heavily overcut in recent years. Mr. Houston said, but forests in southeastern Alaska alone would supply at least half of the entire national demand if it was located in the basement. Eastern pulpwood areas have been heavily overcut in recent years. Mr. Houston said, but forests in southeastern Alaska alone would supply at least half of the entire national demand if it was located in the basement. Eastern pulpwood areas have been heavily overcut in recent years. Mr. Houston said, but forests in southeastern Alaska alone would supply at least half of the entire national demand if it was located in the basement.

BOY HELD AS FLAT ROBBER.

\$8,000 Theft Said to Be Latest of Series in Building.

Lucius Grubb, 19, a negro employed as elevator runner in an apartment at 55 West 110th street, was locked up in the West 123d street station yesterday after robbing the apartment of Jacob Manowitz, an importer of linens, some time Tuesday night. Silverware and jewelry valued at \$8,000 disappeared from the apartment, the greater part of it was located in the basement. Detectives who arrested Grubb said the robbery was the culmination of a series in the building during the month. The apartment of Isaac L. Singer, a clock and suit manufacturer, was entered a few weeks ago and silverware and clothing valued at \$1,500 stolen.

ARNDTSEN IN MARRIAGE RECORD.

That the marriage of Arnstein and Fannie Brice was irregular because he already had a wife when the ceremony took place is a charge which records at the office of the Social Register, Brooklyn, appear to disprove. According to the records at Jamaica an absolute divorce was granted to Carrie Arnstein from Jacob Arnstein on June 10, 1919. The intermediary decree was handed down by Justice Faber at Long Island City March 1, 1919. The suit was undefended, and a woman described as "Fannie" was named in the testimony.

Eight days after the issuance of the final decree, on June 18, 1919, the records at the Brooklyn Borough Hall show that the marriage of Arnstein and Fannie Brice took place at the Brooklyn City Hall, Brooklyn, on June 18, 1919. The intermediary decree was handed down by Justice Faber at Long Island City March 1, 1919. The suit was undefended, and a woman described as "Fannie" was named in the testimony.

Waldman Explains that the Socialists voted against a resolution in honor of the memory of Abraham Lincoln on February 11, 1913, because they disagreed with the resolution's recitation of historical facts "which we considered untrue."

United Drug Surplus Is Up.

The United Drug Company has issued its annual report for 1919. It shows a surplus, after charges, of \$4,275,004, or \$14.88 a share on its common stock against \$2,506,609, or \$12.21 a share in 1918. Net sales totalled \$38,328,834, an increase of more than \$7,000,000, and costs, aggregated \$33,771,028, an advance of a little more than \$6,000,000, making gross profits from sales \$4,557,806, against \$18,592,018.

Rebuilding Health After Any Illness

Getting Well Means Gaining Strength—A Wholesome Tonic

The getting well stage of grip, pneumonia or influenza is the most dangerous of all because the body, weakened by the disease, is wide open to attacks of other lurking germs. That is why all the organs of the body must be kept in their best working order in order to drive out the poison left by the disease, but that the patient shall regain strength as soon as possible to avoid further attacks resulting from the poisons in the system. As a tonic to rebuild good health after any illness Father John's Medicine builds up the body because it is all pure wholesome nourishment and free from opium, morphine, chloroform or other poisonous drugs or alcohol. Father John's Medicine has had 60 years' success for colds and throat troubles, coughs and sore throats, and as a tonic and body builder.

One of the best known professional men in New York (his name will be given on request) says: "After an acute attack of typhoid pneumonia I had a parking cough and lost twenty pounds in eleven days. I never was so completely run-down in my life. I was about to go to a hospital when I began to take Father John's Medicine, which, after I had taken it faithfully, restored me to sound health. I regained flesh that I had lost and have since been as well as ever in my life. I have since learned that my physician has been in the habit of prescribing Father John's Medicine in such cases."
